

Aerospace Applications

We deliver clean air so companies operate safely, and families can be healthy together. It is the mission of Pleatco Filtration to be a best-in class manufacturer and supplier of replacement and OEM filtration products.

Ensure Product Safety

Air filtration plays a major role in the aerospace industry. Many people depend on aircraft to get from place to place, it is highly important that they are manufactured correctly and safely. During this process, toxic particulate and chemicals can be generated into the air. This puts workers at risk of many health effects and lung-related issues.

- Welding
- Plasma Cutting
- Sanding
- Milling/Grinding
- 3D Printing

Stocked Filters

We stock many standard OEM replacement filters that are able to ship within 48 hours!

Combustible Dust Hazards

Combustible Dust Hazards exist in aerospace applications; especially from welding, plasma cutting, etc.

Manufacturing Excellence

All Pleatco filters are built to OEM specifications or better. We use a wide range of materials to build innovative products, delivered fast and cost effectively.
