

Plastics Industry

We deliver clean air so companies operate safely, and families can be healthy together. It is the mission of Pleatco Filtration to be a best-in-class manufacturer and supplier of replacement and OEM filtration products.

Minimize Health Risks

Air filtration plays a major role in the manufacturing of plastic products. It is imperative to ensure dust collection is used to improve working conditions of processes where plastics is being produced. Particulate from fiberglass, mineral dusts, and others in plastics carry health risks.

There are many different applications and processes, just to name a few.

- Pelletizing
- Molding
- Conveying
- Grinding

Stocked Filters

We stock many standard OEM replacement filters that are able to ship within 48 hours!

Combustible Dust Hazards

Combustible Dust Hazards exist in plastic applications; especially from dry ingredients.

Manufacturing Excellence

All Pleatco filters are built to OEM specifications or better. We use a wide range of materials to build innovative products, delivered fast and cost effectively.
